PRODUCT DETAILS:

The 48" long, 40"wide, and 5-1/2"high Refurbished-Grade B-Stringer-Wood-Pallet is just as sturdy and dependable as other pallets. It can support 2,500 pounds of static weight and offers 4-way fork access. ISPM 15 Export Specifications are met by the Refurbished -Grade B-Stringer-Wood-Pallet. The Grade B Pallet is just as strong and dependable as other pallets are also known for their commercial use in the shipping, food processing, moving and storage, manufacturing, and automotive industries. However, these pallets require more and different kinds of repairs to perform at the same level. The stringer boards on B grade pallets frequently have repairs made, typically in the form of companion stringers. Additionally, compared to A grade pallets, the Refurbished-Grade B-Stringer- Wood-Pallet tends to exhibit more visible superficial wear and discoloration.

CORRUGATED WARDROBE MOVING BOX

PRODUCT DETAILS:

The Corrugated wardrobe moving box includes a rod inside for hanging clothes. Instead of folding your items, just pull the hooks out of your closet and hang them in the wardrobe moving boxes. Moving boxes for wardrobes are ideal for shipping and storing apparel. These crates may accommodate clothing that is still hanging on hangers, which eases some of the laborious shifting process. The proper alignment of the box and its significance are indicated by text and arrows on the vertical hanging versions. The box allows the clothing to be put flat with the hangers attached. The Corrugated wardrobe moving box measures 24" in Length x 24" in Width x 40" in Height
